PROFESSIONAL SUMMARY

Frontend Developer with hands-on 2.5+ years of experience building responsive and scalable web applications using React.js, Next.js, TypeScript, Redux Toolkit, and modern JavaScript. Skilled in developing reusable UI components, REST API integration, state management, and performance optimization. Passionate about creating user-centric digital experiences and continuously learning modern web technologies. Seeking Frontend Developer opportunities to contribute to impactful products and grow as a software engineer.

CORE COMPETENCIES

- React.js Development
- Next.js Development
- JavaScript
- TypeScript
- Redux Toolkit
- REST API Integration
- Responsive Web Design
- Component-Based Architecture
- State Management
- UI/UX Implementation
- Performance Optimization
- Cross-Browser Compatibility
- Git & GitHub

TECHNICAL SKILLS

- **Frontend** : HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript
- **Frameworks & Libraries** : React.js, Next.js, Redux Toolkit, React Hooks, Context API
- **State Management** : Redux Toolkit, Context API
- **API & Data Fetching** : REST APIs, Axios, TanStack Query
- **Authentication** : JWT Authentication
- **UI Technologies** : Material UI, Bootstrap, Tailwind CSS, Responsive Design
- **Development Practices** : Component-Based Architecture, Performance Optimization
- **Tools** : Git, GitHub, VS Code, Cursor AI , Antigravity AI

PROFESSIONAL EXPERIENCE

LnX Cloud Technology | Front-End Developer | Rajkot, Gujarat 01/01/2024 - Current

- Developed responsive and scalable web applications using React.js, Next.js, TypeScript, and Material UI, translating UI/UX designs into production-ready interfaces.
- Developed and maintained CRM and Admin Dashboard applications serving 500+ users, improving operational efficiency and reducing manual tasks.
- Built responsive, pixel-perfect web applications using React.js and modern JavaScript, delivering seamless user experiences.
- Created 70+ reusable React components and integrated REST APIs, accelerating development and ensuring scalable application architecture.
- Collaborated with designers, backend developers, and stakeholders to deliver high-performance, business-focused web solutions.
- Leveraged Git, VS Code, Cursor, and AI-assisted development tools to improve code quality, productivity, and team collaboration.

Techerudite | Web Designer 01/09/2023 - 31/12/2023

- Converted UI/UX designs into responsive, pixel-perfect interfaces using HTML5, CSS3, SCSS, JavaScript, React.js, and Bootstrap.
- Enhanced existing applications by improving UI/UX, code quality, and overall user engagement.
- Implemented responsive and cross-browser compatible layouts, ensuring optimal performance across multiple devices.
- Built reusable React.js components and collaborated with cross-functional teams to deliver scalable front-end solutions.

Tops Technology Pvt. Ltd. | Front-End Developer (trainee) 05/04/2023 - 18/08/2023

- Trained in web design fundamentals including HTML5, CSS3, and UI principles.
- Learned JavaScript and React.js for building interactive web applications.
- Completed multiple task covering responsive design patterns.
- Learn basic about version control workflows of Git and GitHub

FEATURED PROJECTS

Tiles Catalogue - Digital Tile Catalogue Management System

- **Tech Stack** : Next.js, TypeScript, Redux Toolkit, Context API, Material UI, Firebase, REST APIs, JWT Authentication
- Developed a digital catalogue management platform for tile manufacturers and distributors, enabling efficient product organization and presentation.
- Implemented JWT Authentication and role-based access control to secure user access and application resources.
- Utilized Redux Toolkit and Context API for efficient state management and seamless data flow across the application.
- Integrated REST APIs and Firebase while building responsive, reusable UI components using Next.js, TypeScript, and Material UI.

SitePace.ai - AI Construction Monitoring Platform

- **Tech Stack** : Next.js, TypeScript, Context API, Bootstrap, REST APIs, JWT Authentication
- Developed responsive web interfaces for an AI-powered construction monitoring platform offering 360° virtual site walkthroughs and progress tracking.
- Implemented JWT Authentication and protected routes to ensure secure user access and session management.
- Leveraged Context API for centralized state management, improving application scalability and maintainability.
- Integrated REST APIs to display project insights, issue reports, and interactive construction monitoring data across multiple devices.

SMS Gateway Application

- **Tech Stack** : React.js, Bootstrap, JavaScript, REST APIs.
- Contributed to the frontend development of an SMS campaign management platform.
- Utilized Context API for centralized state management, enabling efficient data sharing across campaign, messaging, and reporting modules.
- Built responsive interfaces for campaign creation, scheduling, bulk messaging, and delivery report tracking using React.js and Bootstrap.
- Integrated REST APIs to manage messaging workflows, monitor delivery status, and ensure seamless communication between frontend and backend systems.

CERTIFICATIONS

Front-End Developer Certification

Tops Technologies

- Certification approved by Skill India and NSDC (National Skill Development Corporation)
- Completed structured training in modern front-end development tools and practices

React-JS Developer Certification

LearnTube.ai

- Successfully cleared the React-js Developer Assessment
- Certification platform trusted by 900+ hiring companies, including Amazon, Swiggy, Netflix, and Zoho

EDUCATION

BSc (Cs)

2018 – 2021

Shree Patel Kelavani Mandal College of Technology

- Graduated with 7.93 CGPA
- Developed strong analytical and problem-solving skills through academic projects and coursework

LANGUAGES

- **English** – Professional Working Proficiency
- **Hindi** – Full Professional Proficiency
- **Gujarati** – Native / Full Professional Proficiency
